

# DenTeach<sup>TM</sup>

Next Generation Dental Education - Premium Edition

**DenTeach** is a class of next generation learning for improved dental education.

## Flexible Applications

### Live Classroom Solution

**School Teaching Lab - DenTeach** is a robust and reliable dental training platform. Any number of portable **DenTeach** student workstations can be connected to an instructor's workstation.

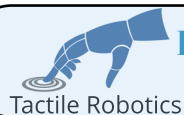

### Student Practice Solution

**Lab Practice** - Students can follow a virtual instructor, practice, self-assess, and submit their tasks independently without taking up an instructor's time.

**Home Practice** - Each student has access to a library of "instructor-developed" practical courses that are accessible from a remote location like their home.

**DenTeach** utilizes its advanced hardware to enhance the transfer of knowledge from instructor to students!

# DenTeach Premium Components

## Why DenTeach?

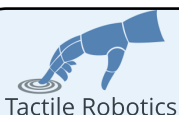

- ✓ **Reduce Demand on Instructors** - Students can practice, learn, and self-assess on their own, plus have access to pre-recorded class sessions.
- ✓ **Portable "Anywhere" Learning** - Access online courses through the **DenTeach** cloud-based library from anywhere using portable devices.
- ✓ **Instructor Grading Tool** - Provides computerized, consistent, and objective grading metrics.
- ✓ **Unlimited Student Practice Time** - Students can re-watch lessons to help increase task proficiency.
- ✓ **Instructor Class Manager Interface** - Allows for live, one-on-one communication with students and provides real-time and historical performance scores.
- ✓ **Cloud-based Library** - View and replay online teaching sessions allowing for more practice via a virtual dental instructor tool, anytime, anywhere.

## DT-PrepScanner

- Instructors**
- ▶ Fast, accurate, and objective grading of tooth preps.
  - ▶ A library of easy-to-use, pre-defined, and editable course rubrics.
  - ▶ Set customizable course rubrics.

- Students**
- ▶ Anywhere, anytime access to a virtual tutor.
  - ▶ Self-assessment using a high-accuracy measurement machine with in-built grading.
  - ▶ Access to digital rubrics and a source of dental know-how.
  - ▶ Compare student preps with intact teeth and/or instructor preps.
